

about me

Creative Director and visual storyteller operating at the intersection of high-concept brand strategy, cinematic filmmaking, and next-generation AI/CGI pipelines. Experienced in orchestrating cross-disciplinary teams to deliver defining brand manifests, international festival submissions (Cannes Lions 2026, Premios Eficacia, BestIn Auto), and comprehensive studio identity relaunches.

Pioneers procedural 3D and generative workflows that bridge artisanal craft with scalable, state-of-the-art production—transforming complex technological and strategic narratives into emotionally resonant audiovisual poetry.

experience

- Making Science / Ameba Studios — Audiovisual Creative Coordinator** 2021 — PRESENT
- Spearhead creative direction, narrative conception, and audiovisual execution for flagship films, international campaigns, and brand summits (Cannes 2026 debut, Mazda España, Helios AI Factory, 5W of Marketing).
 - Directed the comprehensive studio rebranding and launch of **Ameba Studios**, architecting its visual universe, launch film, and positioning as an AI-driven audiovisual powerhouse.
 - Engineered proprietary generative AI and procedural 3D pipelines, bridging cutting-edge visual exploration with high-fidelity production velocity.
 - Lead and mentor multidisciplinary talent across art direction, 3D/CGI, screenwriting, sound design, and post-production.
- Freelance — Creative & Audiovisual Direction** 2020 — PRESENT
- Direct bespoke commercial films, visual identities, and 3D narrative universes for global brands and cultural initiatives, orchestrating full-cycle conceptual development, shoot direction, and high-end post-production.
- New Rule Magazine — Creative** 2021
- Supported creative projects while beginning to develop skills in both innovative idea generation and technical execution.

education

- Motion Graphics & 3D Master** 2021 — 2022
- Trazos School · Specialization in procedural simulation, CGI lighting & look development
- Cinema, TV & Media Degree** 2017 — 2021
- Universidad Rey Juan Carlos · Degree Thesis (TFG): Mach Fast-Food Universe
